Dear Todd:

Please find attached four documents (To be signed...): "Assignment" and "Declaration for Patent Application" for two US Patents that are being filed by In-Situ Inc., on which you are a known inventor.

In order for In-Situ to properly file the US Patent Applications, we need for you to properly sign the enclosed documents and return them by either mail or FAX. If you will return them by mail please send the documents to: Kent Henry, In-Situ Inc., 210 South Third Street, Laramie, WY 82070. Or please fax the documents to 307/721-7537.

The two "Assignment" documents must be signed in the presence of a notary and be properly notarized. The two "Declaration..." documents just need be signed.

Thank you for your assistance Todd. I need for these documents to be returned to me by Friday February 8, 2002. You may simply come to In-Situ to sign them directly and have them notarized on-site if you wish.

Sincerely,

Kent D. Henry, Ph.D.
R&D Director.

To be signed, Tool Assembly:
